EXECUTIVE SUMMARY

Of the 48,770 establishments in Manitoba as of January, 1988, 34,590 (70.9%) are in the 3 sectors Services, Trade and Primary. The Services group (which includes Business, Education, Health, Accommodation and Other Services) has the largest number of establishments at 15,320 (31.4% of the Manitoba total) while the Government sector has the smallest number of establishments at 764 (1.6%).

Only 38 establishments (less than 0.1%) have 1,000 employees or more while 27,072 (55.5%) establishments report 1-4 employees.

The largest number of establishments (24,134 or 49.5% of the January, 1988 total) is found in the Winnipeg region. The Southwest has the second largest number with 6,289 (12.9%) establishments while the North has the fewest with 2,107 (4.3%) establishments.

There was an increase of 7,809 establishments from January, 1986 to January, 1988 (40,961 to 48,770). The Southeast and South Central regions had the largest percent increases of 53.6% and 39.5% between January, 1986 and January, 1988. The Parklands registered a decrease of 269 (8.8%) establishments in that same time period.

The employment group showing the largest increase between January, 1986 and January, 1988 is the zero employment category with an increase of 3,502 establishments.

INTRODUCTION

This report illustrates the composition of the Manitoba economy in terms of the number of establishments. For an explanation of the term establishment please see the Definitions section below.

The number of establishments is presented by: industry sector and employment size for January, 1988 (Table 1); industry sector and region for January, 1988 (Table 2); region for January, 1986 and January, 1988 (Table 3); employment size and region for January, 1988 (Table 4); and employment size for January, 1986 and January, 1988 (Table 5).

DEFINITIONS:

i) Establishment

For statistical purposes, an "establishment" is defined as the smallest unit of a company (whether sole proprietorship, partnership, co-operative, corporation, etc.) that is a separate operating entity capable of reporting all elements of basic industrial statistics. Revenue Canada payroll deduction accounts are the base data source for the compilation of establishments.

ii) Establishments are assigned to an industry group according to the 1980 Standard Industrial Classification. This SIC code represents their major industrial activity.

iii) In this article the industry group "Business, Education, Health, Accommodation and Other Services" (SIC 7711-7799, 8511-9999) will be referred to as Services.

iv) The tables cover all industrial activity in Manitoba but are limited to the employer portion of the business world. Therefore, a business such as a corner store that is owner/operated, with no paid employees, would be excluded from these counts.

v) Employment Size Codes

The Employment Size Codes give a range of employees only. Most are self-explanatory with the following exceptions:

0 - This size codes indicates either:
(a) that a business had employees and currently does not, or
(b) that the business does not have employees currently but expects to have employees within the next 12 months.

Unknown - This size code is assigned to businesses for which no employment information is available. Experience has shown that 90% of these businesses will have fewer than 20 employees.

MANITOBA ANALYSIS

In terms of the number of establishments, Services is the largest industry sector with 15,320 establishments (31.4% of all Manitoba establishments). The second largest sector is Trade with 10,000 establishments (20.5% of Manitoba establishments). The Primary Sector (including Agriculture, Forestry, Fishing and Trapping and Mines) has 9,270 establishments, thus representing 19.0% of all Manitoba establishments in January, 1988.

The above three sectors, in combination, represent approximately 71% of all establishments in Manitoba. The remaining establishments are to be found in Construction with 5,454 (11.2%), Finance and Real Estate with 3,853 (7.9%), Transportation and Communication with 2,256 (4.6%) and Manufacturing with 1,853 (3.8%) establishments. Government represents 764 establishments (1.6% of Manitoba total) making it the industry sector with the lowest number of establishments in Manitoba.

In terms of employment size, most establishments (27,072 or 55.5%) reported 1 to 4 employees. In all industrial sectors, the largest number of establishments report 1 to 4 employees. Approximately 69% of the establishments in the Primary Sector, 55% in the Construction Sector, 62% in the Transportation and Communication Sector and 58% in the Service Sector employ 1 to 4 employees.

A further 6,327 (13.0%) establishments report 5 to 9 employees, 3,507 (7.2%) report 10 to 19 employees and 1,949 (4.0%) report 20 to 49 employees. There are 6,388 (13.1%) establishments that report Zero employees. For 2,358 (4.8%) establishments, the employment is not known, but experience has shown that approximately ninety percent of the Unknowns have less than 20 employees. The remaining 1,172 (2.4%) establishments report 50 employees or more. Thirty-four establishments (less than 1%) have between 1,000 and 5,000 employees and 4 establishments report 5,000 employees or more.

The Primary industry sector had 1,556 establishments in the Zero employment group and 6,421 in the 1 to 4 category; these two employment groups account for 86.1% of the 9,270 establishments in the Primary sector, while these employment groups account for 68.6% of all Manitoba establishments. Manufacturing and Government had the smallest percentage of firms in the less than 5 employee categories with 34.1% and 20.3% respectively. Of the 38 establishments reporting 1,000 or more employees, 18 or 47.4% were in the Services sector. None of the other sectors had more than 5 establishments in this employment group.

DATA SOURCE: STATISTICS CANADA BUSINESS REGISTER CYCLE 195 - JANUARY, 1988

REGIONAL ANALYSIS

Manitoba is divided into 8 Official Regions for Data Collection. These "Regions", also known as Economic Regions, include Southeast, South Central, Southwest, North Central, Winnipeg, Interlake, Parklands and North (see map in Appendix A).

The largest number of establishments is to be found in Winnipeg with 24,134 (49.5% of the Manitoba total) as of January, 1988. Of these 24,134 establishments, 9,470 (39.2% of the Winnipeg establishments) are coded as Service. Winnipeg has 5,585 (23.1%) establishments classified to the Trade sector, 2,881 (11.9%) establishments classified to the Construction sector, and 2,730 (11.3%) establishments classified to the Finance & Real Estate sector. The remaining four sectors account for 3,468 (14.4%) establishments.

The second largest number of establishments for January, 1988 is to be found in the Southwest region with 6,289 (12.9% of the Manitoba total). The Primary sector accounts for 2,328 (37.0%) establishments, Services for 1,488 (23.7%) establishments and Trade for 1,111 (17.7%) establishments. The other sectors account for 1,362 (21.7%) establishments.

The Primary and Services sectors account for 1,249 and 1,018 establishments in the Southeast region (52.8% of the region's 4,290 establishments). This pattern of having these two sectors account for the largest number of establishments holds true in all regions except for Winnipeg and the North region. The Manufacturing and Government sectors account for the fewest number of establishments in all non-Winnipeg regions (in Winnipeg, Primary and Government account for the fewest firms).

In the South Central region, the Primary sector accounts for 1,700 of the 3,876 (43.9%) establishments. The Services and Trade sectors account for 1,411 (36.5%) establishments. The remaining five sectors represent 761 (19.6%) establishments. A similar situation occurs in the Parklands region where Primary establishments account for 1,269 (48.9%), Services and Trade account for 1,033 (36.9%) and the remaining five sectors account for 497 establishments, or 17.8% of the region's 2,799 establishments.

The Primary sector accounts for 948 (31.6%) of the 2,998 establishments assigned to the Interlake region, the Services sector accounts for 701 (25.7%) establishments and the Trade sector accounts for 553 (18.4%) establishments. There are 434 (14.5%) establishments classified as Construction. This high percentage in the Construction sector is only surpassed by the Southeast region reporting 15.5% of its establishments in this sector. The remaining 362 (12.1%) establishments in the Interlake are spread across the four other sectors.

There are 2,107 establishments assigned to the North region : 803 or 38.1% are Service and 484 or 23.0% are Trade. The North region with 56 (2.7%) Government establishments has the largest concentration of all regions. The North region reported 214 (10.2%) Transportation and Communication establishments : also the highest percentage among the regions.

NOTE : FOR STATISTICAL PURPOSES, AN "ESTABLISHMENT" IS DEFINED AS THE SMALLEST UNIT OF A COMPANY (WHETHER SOLE PROPRIETORSHIP, PARTNERSHIP, CO-OPERATIVE, CORPORATION, ETC.) THAT IS A SEPARATE OPERATING ENTITY CAPABLE OF REPORTING ALL ELEMENTS OF BASIC INDUSTRIAL STATISTICS.

DATA SOURCE: STATISTICS CANADA BUSINESS REGISTER JANUARY, 1986 AND JANUARY, 1988
MANITOBA BUREAU OF STATISTICS POSTAL CODE TRANSLATOR FILE

There were 40,961 Manitoba establishments as of January, 1986 while there were 48,770 as of January, 1988. This represents an increase of 7,809 (19.1%) establishments during the two year period, or an average annual increase of 9.1 percent.

The January, 1986 establishments were coded to the 1970 SIC while the January, 1988 establishments have been coded to the 1980 SIC. Therefore, no historical industry group comparisons will be made.

Each of Manitoba's regions experienced an increase in its number of business establishments, from January, 1986 to January, 1988, with one exception. The Parklands region showed a decrease of 269 (8.8%) establishments during this period.

Winnipeg's number of establishments went from 20,082 in 1986 to 24,134 in 1988: an increase of 4,052 (20.2%) establishments. The Southeast region saw the largest percent increase of 53.6% (1,497 establishments) over the two year period, while the North Central region saw the smallest increase of 152 (7.2%) establishments over the two year period.

The South Central region had an increase of 1,097 (39.5%) establishments, the Southwest region had an increase of 624 (11.0%), the Interlake had an increase of 236 (8.5%) and the North had an increase of 418 (24.7%) establishments.

As of January, 1986, Winnipeg had 49.0% (20,082) of Manitoba's establishments, which increased to 49.5% (24,134 establishments) by January, 1988. Three other regions experienced an increase in their share of Manitoba establishments in this time period. The Southeast region went from 6.8% (2,793) in 1986 to 8.8% (4,290) in 1988, the South Central region went from 6.8% (2,779) in 1986 to 7.9% (3,876) in 1988 and the North region went from 4.1% (1,689) in 1986 to 4.3% (2,107) in 1988.

The Southwest region, which has the second highest number of establishments, went from having 13.8% (5,665) of Manitoba's establishments in January, 1986 to 12.9% (6,289) in January, 1988. The Parklands region, which held the third greatest percentage of Manitoba establishments in January, 1986 (7.5% or 3,068 establishments) fell into sixth place by January, 1988 (5.7% or 2,799 establishments).

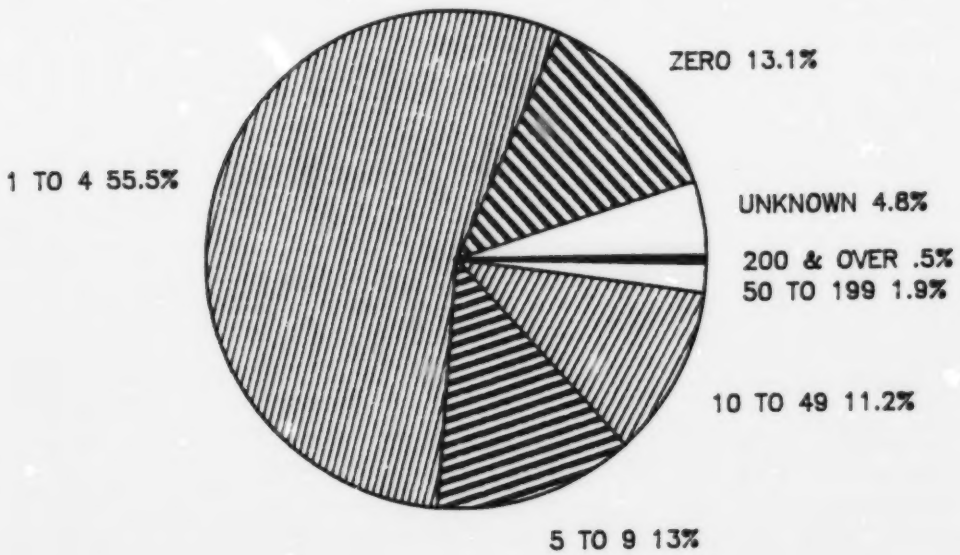
EMPLOYMENT ANALYSIS

The majority of the January, 1988 Manitoba establishments report 1 to 4 employees : 27,072 establishments or 55.5% of Manitoba's 48,770 establishments. There are 6,388 (13.1%) establishments that report Zero employees, 6,327 (13.0%) establishments report 5 to 9 employees, 3,507 (7.2%) establishments report 10 to 19 employees and 1,949 (4.0%) establishments report 20 to 49 employees.

There are also 1,148 (2.4%) establishments that report 50 to 1,499 employees. Only 21 establishments report 1,500 or more employees, all of which are located in Winnipeg. The average (median) employment size for establishments reporting employment is 3 employees.

PERCENTAGE OF ESTABLISHMENTS BY EMPLOYMENT SIZE



The January, 1988 data has Winnipeg and the North region report respectively 49.7% and 51.3% of their establishments in the 1 to 4 employee category: all other regions report significantly higher percentages of 60.4 to 63.8 percent.

Winnipeg and the North regions also have the lowest percentages of establishments in the Zero employment category, 12.4% and 10.1% respectively: the other regions range from 13.1 to 15.8 percent.

There are 38 establishments that report more than 1,000 employees. Of these, 34 establishments (89.5%) are in Winnipeg, 2 (5.3%) are in the North, 1 (2.6%) is in the Southeast and 1 (2.6%) is in the Southwest region.

NOTE : FOR STATISTICAL PURPOSES, AN "ESTABLISHMENT" IS DEFINED AS THE SMALLEST UNIT OF A COMPANY (WHETHER SOLE PROPRIETORSHIP, PARTNERSHIP, CO-OPERATIVE, CORPORATION, ETC.) THAT IS A SEPARATE OPERATING ENTITY CAPABLE OF REPORTING ALL ELEMENTS OF BASIC INDUSTRIAL STATISTICS.

DATA SOURCE: STATISTICS CANADA BUSINESS REGISTER CYCLE 195 - JANUARY, 1988

From January, 1986 to January, 1988 there was an increase of 7,809 business establishments in Manitoba (from 40,961 to 48,770). In 1986 3,187 (7.8%) establishments did not report employment information, compared to 2,358 (4.8%) establishments in 1988.

The only employment category that had a decrease in the number of establishments from January, 1986 to January, 1988, was the 2,500 to 4,999 employment category, which had a net loss of one establishment (from 9 to 8). However, both the 1,500 to 2,499 employee and 5,000 & Over employee groups had a net gain of two establishments during this period. This amounts to a 28.6% increase in the 1,500 to 2,499 employee group and a 100% increase in the 5,000 & Over employee group, between January, 1986 and January, 1988.

Over this two year period, the Zero employment category had the greatest increase, with 3,502 (121.3%) more establishments in January, 1988 than in January, 1986. These are establishments which had employees until recently, or plan to have employees within the year.

The employment category showing the second largest absolute increase was the 1 to 4 employee category with 2,355 (9.5% increase over January, 1986) establishments followed by the 5 to 9 employee category with 1,315 (26.2%) establishments. The 10 to 19 employee category increased by 825 (30.2%) establishments and the 20 to 49 employee category increased by 375 (23.8%) establishments.

Just as the larger employee categories account for fewer establishments, they also have slower growth. The 50 to 99 employee group increased by 134 (25.9%) establishments, the 100 to 199 employee group increased by 69 (32.2%) establishments, the 200 to 499 employee group increased by 40 (35.4%) establishments, the 500 to 999 employee group increased by 17 (63.0%) establishments and the 1,000 to 1,499 employee group increased by 3 (21.4%) establishments.

Table 4 presents the number of establishments by employment size and region as of January, 1988, and Table 5 presents the number of establishments by employment size for January, 1986 and January, 1988.
